2. BACKGROUND

Ride Connection is a nonprofit organization established in 1988 to provide adaptable and accessible transportation for older adults and individuals with disabilities. Originating as a TriMet initiative in the 1980s, it has grown into a model of public-private collaboration, delivering over 315,000 rides annually with a network of over 1,000 drivers, including 150 volunteers.

The organization also offers programs such as the RideWise Travel Training Program and many others, assisting individuals in accessing transit. In late 2019, Ride Connection achieved a major milestone when it was awarded the contract for managing the Portland Metro region's **Non-Emergent Medical Transportation (NEMT)** services for Medicaid recipients. The organization officially assumed this responsibility in February 2020, collaborating with CareOregon®, Comtrans, and Transdev. Each partner contributes specialized expertise to the program, creating a robust and collaborative structure that diverges from the traditional model where a single entity manages the entire Medicaid transportation program.

As the NEMT network manager, Ride Connection has spearheaded transformative changes in a system fraught with systemic challenges. Since assuming leadership of the NEMT program, Ride Connection has made significant strides in enhancing service delivery and program performance, reinforcing its reputation as a trusted and innovative transportation leader.

3. SCOPE

Ride Connection is looking to contract with either a Business or a Business Leader ("Contractor") to start a **Non-Profit, Non-Emergency Medical Transportation (NEMT) Ambulance Company ("Ambulance Company")**. This would involve the initial conception of how a new non-profit ambulance service can address the community in the Portland, Oregon Tri-county region in a financially sustainable way. This would begin with consulting to establish an ambulance company, with the potential to transition into a full-time leadership position responsible for strategically guiding the operation for its growth.

The Contractor will be responsible for supporting Ride Connection's Executive Leadership, Senior Project Manager, and Policy Analyst in creating a robust business case, identifying solutions for potential financial sustainability barriers, and helping develop a comprehensive business implementation plan to present to the Board of Directors for approval. The Contractor will provide guidance to help the Project Manager and Ride Connection implement the business plan once approved.

Additionally, this role will foster a positive and productive work environment, inspire and support staff, build strategic partnerships with local agencies and transportation network stakeholders, and support the Policy Analyst's coalition efforts. Ensuring compliance with relevant laws and regulations is essential.

The Consultant may be able to transition to a leadership role in the Ambulance Company.

- Develop a detailed business case and feasibility analysis.
